Ref: (a) SECNAVINST 5870.5

1. The Career Information Program Management (CIPM) computer program was developed by NETPMSA Detachment application development office as a mission support function for the Chief of Naval Air Training (CNATRA). Paragraph 4.a of reference (a) states: "Copyright protection is not available for works prepared by employees of the U.S. Government as part of their official duties." Therefore, there is no license required to use our program. You can install, use and distribute it without copyright infringements.

2. Please remember to mail in a completed registration form to the above below. The registration card performs services for both of us: a) we have an idea of the utilization of the system while accepting recommendation for improvements and corrections, and b) after enhancements are incorporated into the system, addresses on file will be notified of updates and changes to the program.

3. Our office maintains a trouble desk for all CIPM users.
